-   Designed, planned, and coordinated UI/UX for Parade Wisuda Oktober 2021's Website

Skill: Figma

NOTABLE ACHIEVEMENTS

- **[National] 1st Winner BIOS UMN Hackathon 2021:** Awarded as the first winner in this hackathon held by Multimedia Nusantara University. I presented a web-based platform to accommodate digital skills and experience among jobless people by introducing them to the freelance occupation. My role here is as Frontend Engineer.
- **[National] Finalist of HackBiz 2021:** Awarded as top 6 from 50 teams in this hackathon held by 180 Consulting Gadjah Mada University. I presented Edurang, a web platform to solve financial problems among university students in Indonesia by giving loans to students with interest based on student performance. My role here as a Frontend Engineer.

SELECTED PROJECTS

- **Ensiklopedi.Id** (2022). It's a mobile app where users can buy, read, add to collections, search, and filter books they want. It's a project for a client. **Flutter, Golang.**
- **Website Spotify App** (2022). Spotify Web App where this application has several features, especially in terms of song search and playlist creation according to the selected song. **React, React Hooks, Typescript, OAuth Implicit Grant Flow.**
- **Website Edurang** (2021). A platform where students can apply for loans and be reimbursed when they graduate college. Loan interest will depend on student performance (GPA). The payment bill will be divided into several billing phases according to the number of semesters taken. In each phase, students can choose a payment period to complete the payment. It is for HackBiz Competition. **ReactJS, HTML, CSS, JS.**
- **Website LearnNPro** (2021). The application is a platform that provides course expertise around IT and design and projects that users can take. It is for the BIOS UMN Hackathon. **ReactJS, ReactHooks.**
- **Website Rakata** (2022). A website that builds for the Rakata Club at Bandung Institute of Technology. **ReactJS, React Hooks, CSS**

SKILLS

Javascript, Typescript, Java, Python, C++, HTML, CSS, PostgreSQL, React, Node.js, Git, PHP
